

Product Technical Bulletin

Product Name: KIMTECH* Non Residue Tack Cloth

Description:

100% polyester cloths impregnated with rosin to remove particulates and provide a dust free surface suitable to priming, top and clear coat applications. The cloths are anti-static and silicone free with heat sealed edges suitable for surface preparation applications.

Product information:

Product code	Product Format	Sheet Size	Pack Count
75920	Folded	56cm x 22.5cm	25 sheets x 10 packs

Wiper properties:

Property	Average Result
Basis weight (gsm)	58
Water absorbency (%)	860
Dust wiping efficiency (%)	77
Dust holding capacity (g/m ²)	38
Residue transfer (g/m ²)	0
Lint count (fibres/cm ²)	0
Static dissipation (surface resistance)	Below 10 ¹¹ Ω
Silicone (ppm)	None detected

Workmanship standard:

Wipers are made in accordance with reasonable industry practice with respect to holes, tears, wrinkles, cleanliness and foreign materials or dirt. Edges are cleanly cut and not ragged. Wipers are folded as specified. Wipers have no disagreeable odour, either wet or dry, in accordance with reasonable industry practice.
