Product Name: WYPALL* X80 Wipers

Product Code: 94176

Description:

All WYPALL* X Wipers are made from patented HYDROKNIT* material which is comprised of soft, absorbent cellulose fibres and strong polypropylene non-woven fabric. The cellulose component allows these wiping cloths to absorb water quickly and effectively, while the tear-resistant polypropylene fabric soaks up more than its own weight in oil and grease. The result is a durable and absorbent wiper, which can be used wet or dry. The wipers are produced in a HACCP certified facility.

WYPALL* X80 Wipers are extra strong, absorbent and bulky – ideal for heavy duty wiping tasks. They are compact and can be re-used for cost-effective wiping.

Key applications include (but are not limited to):

- Personal wiping
- Wiping surfaces
- Absorbing liquid spills
- Absorbing oil and grease
- Polishing glass, stainless steel and other metal
- Cleaning sinks, grills, ovens and machinery
- Preparing surfaces with solvents
- Replacing tea towels or waste rag

Product information:

Product Format	Colour	Sheet Size	Pack Count
BRAG* box	White	31.5cm x 42.5cm	150 sheets x 1 pack

Workmanship standard:

Wipers are made in accordance with reasonable industry practice with respect to holes, tears, wrinkles, cleanliness and foreign materials or dirt. Edges are cleanly cut and not ragged. Wipers are folded as specified. Wipers have no disagreeable odour, either wet or dry, in accordance with reasonable industry practice.

Ingredients:

These wipers are made from cellulose fibres hydro-entangled into a polypropylene substrate using patented HYDROKNIT* technology.

Cellulose fibre (CAS 9004-34-6)	75 - 85%
Polypropylene (CAS 9003-07-0)	10 - 25%
Organic Resins	< 5%
Inorganic Salts (various)	Trace only

Not classified as hazardous according to the criteria of NOHSC

Additional Information:

Health Effects

When used according to the company's directions and for the purpose for which they were intended, these wiping cloths will not have any adverse health effects.

First Aid

Swallowed: Remove any material causing obstruction. Seek medical attention if swallowed accidentally.

Eye: Remove any foreign matter and flush with water. Seek medical attention if irritation persists.

Skin: Non irritant. Product is intended to be used in direct contact with skin.

Inhalation: Remove any material causing obstruction.

Precautions for Use

Will burn if subject to excessive heat or flame. Do not use wiping cloths to clean or remove any material over 100°C. Burn properties change if flammable or combustible fluids are absorbed into the wiper.

Safe Handling Information

Store away from any source of ignition. May react with strong oxidising agents e.g. pool chlorine. Fire fighters should wear personal protection and self-contained breathing apparatus. Use fire fighting media suitable for principal cause of fire. Do not allow product to enter drains or waterways.

Disposal Information

Disposal of uncontaminated wiper to ordinary landfill or properly managed municipal incineration is suitable. Dispose contaminated wipers in accordance with local regulations.
