Use: Hand Towel**Physical Description / Properties:**

<i>Appearance:</i>	White tissue paper
<i>Boiling Point (deg C):</i>	Not applicable
<i>Melting Point (deg C):</i>	Not applicable
<i>Vapour Pressure</i>	Not applicable
<i>Specific gravity:</i>	Not applicable
<i>Flash Point (deg C):</i>	Not applicable
<i>Lower Explosive Limit (%):</i>	Not applicable
<i>Upper Explosive Limit (%):</i>	Not applicable
<i>Solubility in water (g/L):</i>	Nil

¹ This product is an 'article' and therefore not a 'substance' by the definitions of the National Occupational Health and Safety Commission. Accordingly it does not require a Material Safety Data Sheet (MSDS) though this *Product Technical Bulletin* provides information in a format similar to that for an MSDS. These products, when used under reasonable conditions or in accordance with KCA's directions for use, should not present a health or safety hazard; however, use or processing of the products in a manner not in accordance with the product's directions for use may affect the performance of the products and may present potential health and safety hazards.

Ingredients²:

Chemical Name	CAS No.	Proportion (%)
Cellulose fibre	9007-34-6	> 98%
Organic Resins	various	< 0.5%
Inorganic Salts	various	Trace only

HEALTH HAZARD INFORMATION**Acute Effects:**

Swallowed: Nil

Eye: Nil

Skin: Nil

Inhaled: Nil

First Aid:

Swallowed: Remove any material causing obstruction

Eye: Remove foreign matter and flush with water

Skin: Non Irritant

Inhaled: Remove any material causing obstruction

Advice to Doctor: Nil

Toxicity and Irritation Nil

PRECAUTIONS FOR USE

Exposure Standards: Cellulose dust is considered a “nuisance particulate”. TLV at 10 mg/m³ of total dust.

Engineering Controls: Disposal of waste to ordinary landfill is satisfactory (similar to newspapers)

Personal Protection: Nil

Flammability: Combustible. Will burn if subject to excessive heat or flame.

² Dry weight basis

SAFE HANDLING INFORMATION

Storage and Transport: Not classifies as Dangerous Goods according to 6th ADG code. Store away from ignition sources. Store away from strong oxidising agents such as pool chlorine.

Spills and Disposal: Prevent fabric or fibre entering storm water drains.

Disposal: Disposal of waste to ordinary landfill or properly managed municipal incineration is suitable.

Fire/Explosion Hazard: Fire fighters should wear personal protection and self-contained breathing apparatus.

Extinguishing Media: Water jets or fog, foam, dry chemical or CO₂. Prevent firefighting water entering storm water drain or waterway.

Other Information May react with oxidising agents. Do not allow into drain or waterway.
